

30-Day Service Warranty for Computer Repair

Thank you for choosing Sarita Computers for your computer repair needs.

We stand behind the quality of our work and offer a 30-day limited service warranty on the completed work. Please carefully review the terms and conditions outlined below:

We are committed to providing high-quality repairs. Our 30-day service warranty covers the following:

Warranty Period: This warranty is valid for 30 days from the repair completion date.

- **Coverage:** We will diagnose issues that arise directly as a result of the repair and parts used. For example, suppose your computer was brought in for a battery replacement and, within 18 days, the battery is not charging properly. In that case, we will cover the labor for diagnostics and any RMA parts installed. Only repairs directly related to the original repair are covered under this warranty.
- **Exclusions:** Issues unrelated to the original repair, such as a flickering screen after a battery replacement, are not covered under this warranty.
- **Liability Disclaimer:** We are not liable for any loss of data, loss of use of the computer, or business interruptions resulting from repairs.

If you have any questions or require assistance regarding the warranty or any other concerns, please do not hesitate to contact our customer service team.
